## (54) FUEL HOSE AND RESIN COMPOSITION THEREFOR

(57)Abstract:

**PURPOSE:** To obtain an inexpensive and high-performance fuel hose free from any problem of safety during its production, and having high interlaminar adhesion strength.

**CONSTITUTION:** This fuel hose 1 is made up of a tubular inner layer 2 and an outer layer 3 directly laminated on the outer peripheral surface of the inner layer 2. The inner layer 2 is made of a fluororesin, and the outer layer 3 is made of a polyamide resin containing 0.5-10wt.% of a carboxylic acid 1,8- diazabicyclo[5,4,0] undecene-7 salt based of the polyamide resin.
